Dear Supervisors:

**CALIFORNIA INSTITUTE FOR MENTAL HEALTH FUNDING AGREEMENT TO
SUPPORT AND PARTICIPATE IN A STATEWIDE CULTURAL COMPETENCY
PROJECT ON MENTAL HEALTH AND SPIRITUALITY
(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)**

SUBJECT

Request approval of a funding agreement between the California Institute for Mental Health and the Department of Mental Health to include Los Angeles County in the California Mental Health and Spirituality Initiative Project, providing consultation to the Department on enhancing support for mental health clients and families, eliminating stigma, reaching unserved and under-served populations and reducing ethnic disparities in care.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve the Funding Agreement (Agreement), substantially similar to the Attachment, by and between the Department of Mental Health (DMH) and the California Institute for Mental Health (CIMH) in the amount of \$28,000, fully funded by Mental Health Services Act (MHSA) funds under the Community Services and Supports (CSS) Plan to allow DMH to participate in CIMH's California Mental Health and Spirituality Initiative Project (Project). The term is for two years, effective upon Board approval
2. Authorize the Chief Deputy Director of Mental Health, or her designee, to prepare, sign, and execute the Agreement with CIMH.

"To Enrich Lives Through Effective And Caring Service"

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

Board approval of these actions will allow DMH to participate in the CIMH Project and thus allow DMH to improve collaboration with faith communities to more effectively eliminate stigma, reach unserved and under-served populations and reduce ethnic disparities in care.

The Project components include 1) a comprehensive examination and analysis of current practices in California counties, 2) development of an annotated, web-accessible database with a focus on published literature on mental health and spirituality, 3) planning assistance and recording of two regional conferences on mental health and spirituality, 4) a briefing paper on legal and regulatory issues related to mental health and spirituality for public mental health authorities, 5) development of a template for conducting community dialogues on mental health and spirituality, and 6) development of tools and curricula. These activities and the resultant resources that will be available will enhance DMH's ability to effectively support the choice of individuals and families to make spirituality a part of their mental health recovery. In addition, they will provide important guidelines and tools for collaborating with faith communities, especially those that work with unserved and under-served populations. It is expected that these endeavors will improve mental health outcomes for individuals and families and improve access to mental health care for unserved and under-served populations.

Implementation of Strategic Plan Goals

The recommended actions are consistent with County Strategic Plan Goal 1, Operational Effectiveness, and Goal 4, Health and Mental Health.

FISCAL IMPACT/FINANCING

The \$28,000 cost of the Agreement is fully funded by MHSA funds under the CSS Plan, Community Outreach and Engagement Component, and is included in DMH's 2008-09 Proposed Budget. There is no increase in net County cost.

FACTS AND PROVISIONAL/LEGAL REQUIREMENTS

CIMH is a private consultant services agency specialized in technical mental health knowledge related to strategic, organizational and systems planning. With headquarters in Sacramento, CIMH was established in 1993 to promote excellence in mental health services through training, technical assistance, research and policy development, and to work collaboratively with all mental health system stakeholders.

Current CIMH Board members include local mental health directors who serve without compensation to further statewide mental health causes.

The MHSA CSS Plan for Los Angeles County, as approved by the State, includes an Outreach and Engagement component designed to increase involvement by and outreach to unserved, under-served and under-represented populations through a variety of approaches, including outreach through faith-based organizations.

CIMH has initiated the Project statewide to assist County mental health agencies to gain relevant knowledge about collaborating with the faith community to support clients in the recovery process, to reduce stigma regarding mental illness, improve penetration into under-served and unserved communities, and develop holistic practices to better serve clients in their recovery.

The Director of Mental Health currently serves on the Board of Directors of CIMH, but he is not compensated and does not benefit financially in any way from serving in that position. In addition, the Director did not participate in the approval process for this contract. County Counsel has advised that the conflict of interest laws therefore do not preclude the County from entering into an agreement with CIMH.

The proposed actions and Agreement have been reviewed by the Chief Executive Office. County Counsel has approved the attached Agreement as to form.

CONTRACTING PROCESS

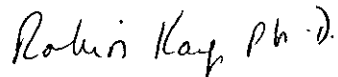

As the proposed Agreement is intended to allow DMH to participate in the CIMH statewide project, no solicitation process was required or appropriate.

IMPACT ON CURRENT SERVICES

Entering into this Agreement with CIMH will allow DMH to enhance its efforts to reach unserved and under-served populations in Los Angeles County through collaboration with faith communities.

Respectfully submitted,

Robin Kay, Ph.D.
Chief Deputy Director of Mental Health
